

## The impact of descriptive content

## on OTA's revenue

- Does your travel agency business receive consistent website visitors?
- And do you have trouble converting them into clients?

## Hotel Property Images

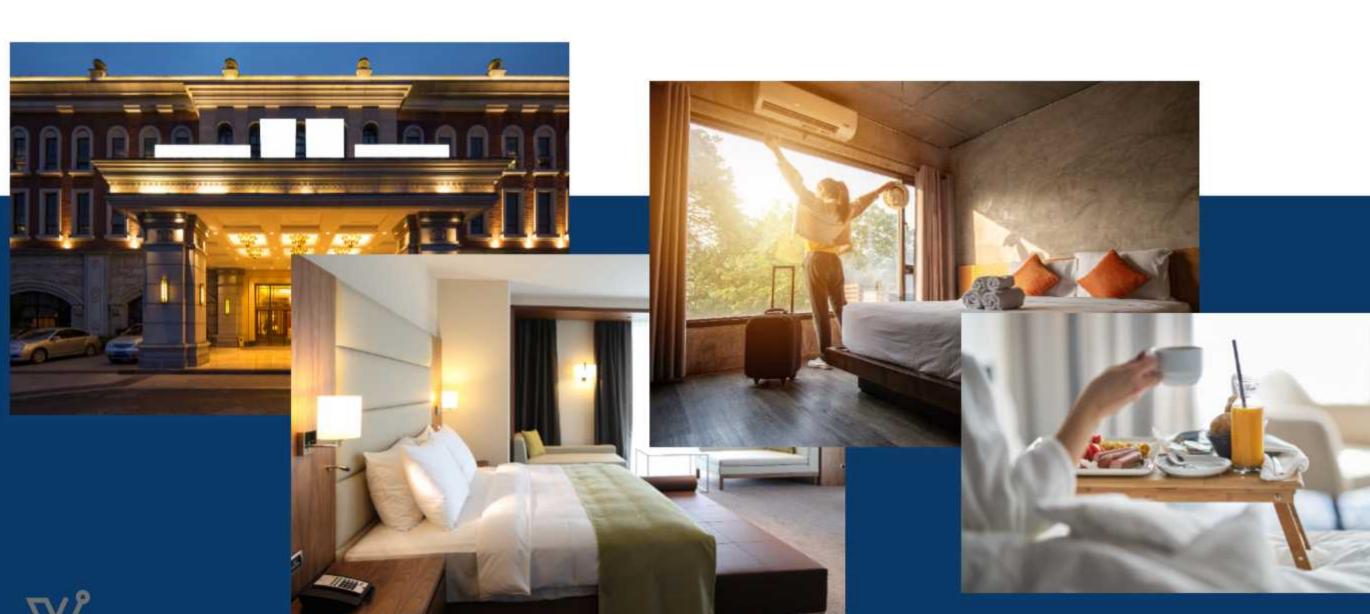

Photography plays a crucial factor when travelers search for hotels on online travel agency's platform.

Better hotel photos generate 150% more interest from travelers<sup>1</sup>

## Improving the quality of hotel and room images increases

Booking volume

Customer engagement

# **Hotel Amenities**

Incorrect hotel amenities can have a negative impact on the traveler's stay. A poor guest review can damage your brand reputation and loyalty. Various automation tools audit the descriptive content of the hotel listings to make sure customers get what they paid for.

# Hotel with pet-friendly rooms

# The guest reaches with pet and finds hotel is not pet-friendly!

#### Incorrect hotel amenities can have a negative impact on the traveler's stay. A poor guest review can damage your brand reputation and loyalty. Various automation tools

Room Types

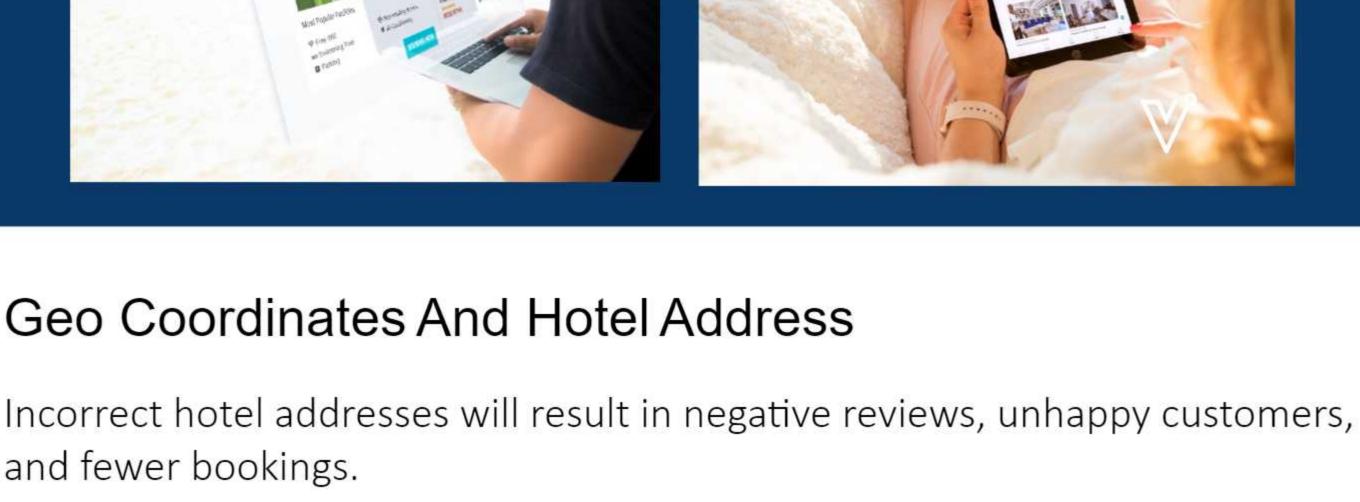

audit the descriptive content of the hotel listings to make sure customers get what they paid for. Did you know that on average there are 30 different names of hotel rooms?

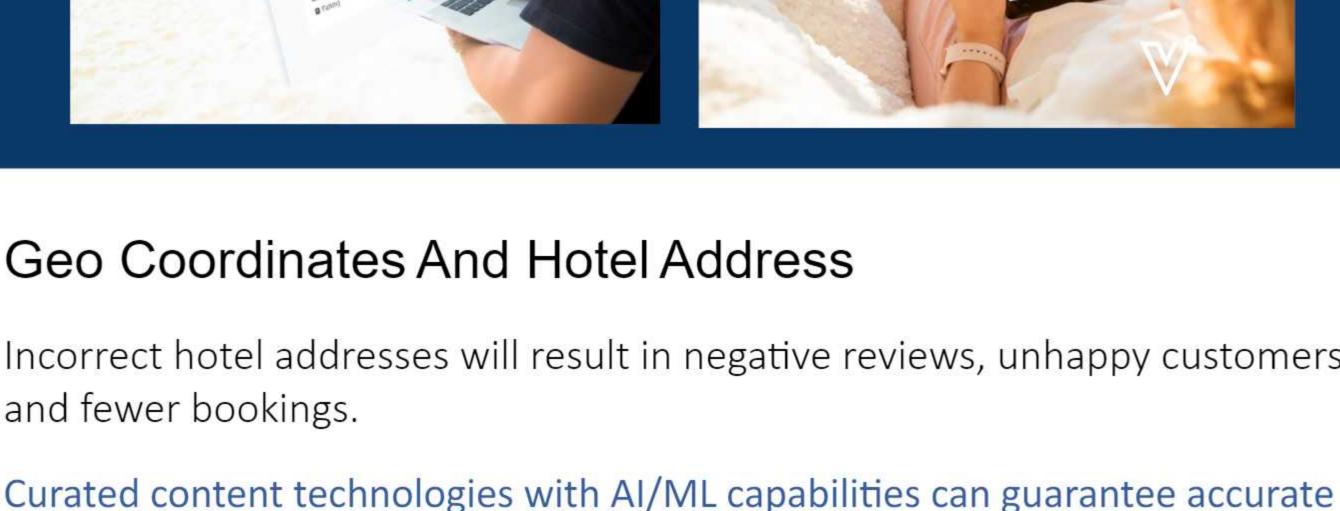

#### Majority of hotels group hotel rooms based on: Board basis Room size Room layout Board basis

 Interior design Bed types Room View

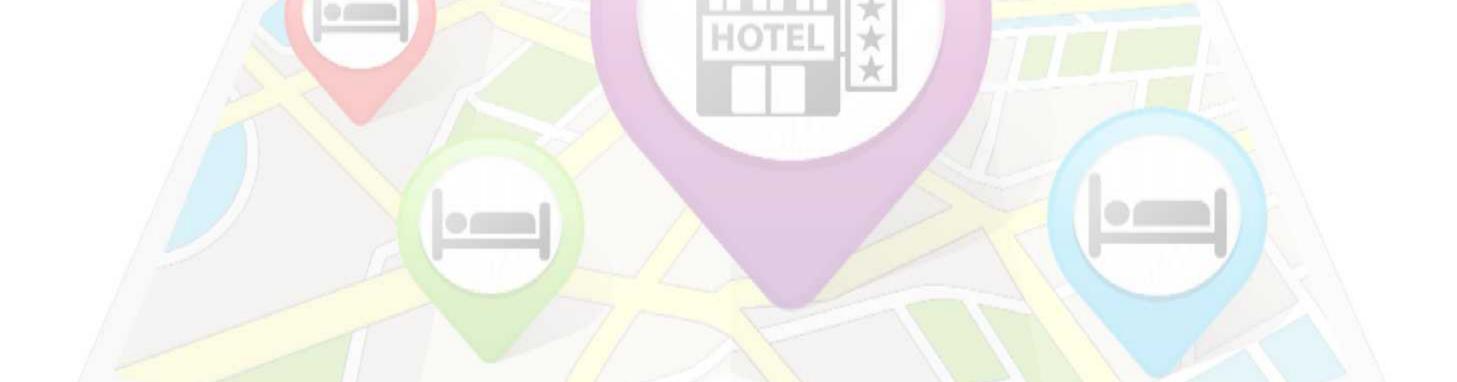

This confuses travelers in their booking decision.

Hence, accurate room data is an absolute necessity and gives customers confidence while booking their rooms. This leads to better revenue and an increase in booking volumes.

# hotel addresses in your database.
